I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I do not support restricting the availability of individually compounded medications - I have been on natural hormones for only two years and synthetic hormones for 10 years - the last two years on "natural" was the best two years of feeling good - with synthetic hormones I had numerous side effects that I do not have with natural compounded hormones made individually for my physical needs - Jill Inwood
